17.0840/42 – Mobile Science Lab Station - Good

This lab station allows basic experiments to be performed in any classroom. It has a self-contained sink and built in extension cord. Top is either HPL or Chemical Resistant. Steel frame for rigidity and strength. Doors lock.

Size: 48"w x 34"h x 23"d

17.0850/52 – Mobile Science Lab Station - Better

This lab station adds 3 drawers to the "Good" model. Perform experiments in any classroom. Top is either HPL or Chemical Resistant. Steel frame for rigidity and strength. Self-contained sink and extension cord. Doors and drawers lock.

Size: 48"w x 34"h x 23"d

17.0860/62 – Mobile Science Lab Station - Best

More cabinet space, an extra vertical rod for more rigid support and a larger Work surface make this our best mobile lab station. Take most any experiment "on the road." Top is either HPL or Chemical Resistant. Steel frame for rigidity and strength. Self-contained sink and extension cord. Doors and drawers lock.

Size: 60"w x 34"h x 23"d

17.0880/82 – Mobile Science Demonstrator

Designed to be in front of the class so a teacher can perform experiments that the class can watch. The adjustable overhead mirror is very effective in allowing students to see what is happening. Three drawers and cabinet space for storage. Top is either HPL or Chemical Resistant. Steel frame for rigidity and strength. Self-contained sink and extension cord. Doors and drawers lock.

Size: 60"w x 34"h x 23"d
