

## 81.8188 & 81.8288 INSTUCTIONS (MAGAZINE DISPLAY SHELF)

Insert two shelf clips in the rear set of holes across from each other at the desired height. Insert two more shelf clips across from each other in front set of holes, six holes lower than rear clips. Set display shelf on rear shelf clips (Note the four pre-drilled holes on the underneath side of the shelf) and attach rear shelf clips with #10 x 5/8 pan head screws. Tilt shelf down until shelf is resting on front shelf clips and \*attach with #10 x 5/8 pan head screws. Your display shelf is now ready for use.

\*To change fixed magazine display shelf into a flip up shelf, omit #10 X 5/8 pan head screws from front shelf clips.
