

BUNK BED ASSEMBLY INSTRUCTIONS

Lower bunk assembly

Begin by taking four tube caps #8 and two foot/end boards #2, using a rubber mallet pound the tube caps #8 into the lower ends of each leg. Next mount the spring frame #1 to the two foot/end boards #2 using sixteen each of the 3/8" hardware #4 #5 #6. Using a 9/16" wrench or socket, tighten 3/8-16 carriage bolts until flush against spring frame bracket.

Upper bunk assembly

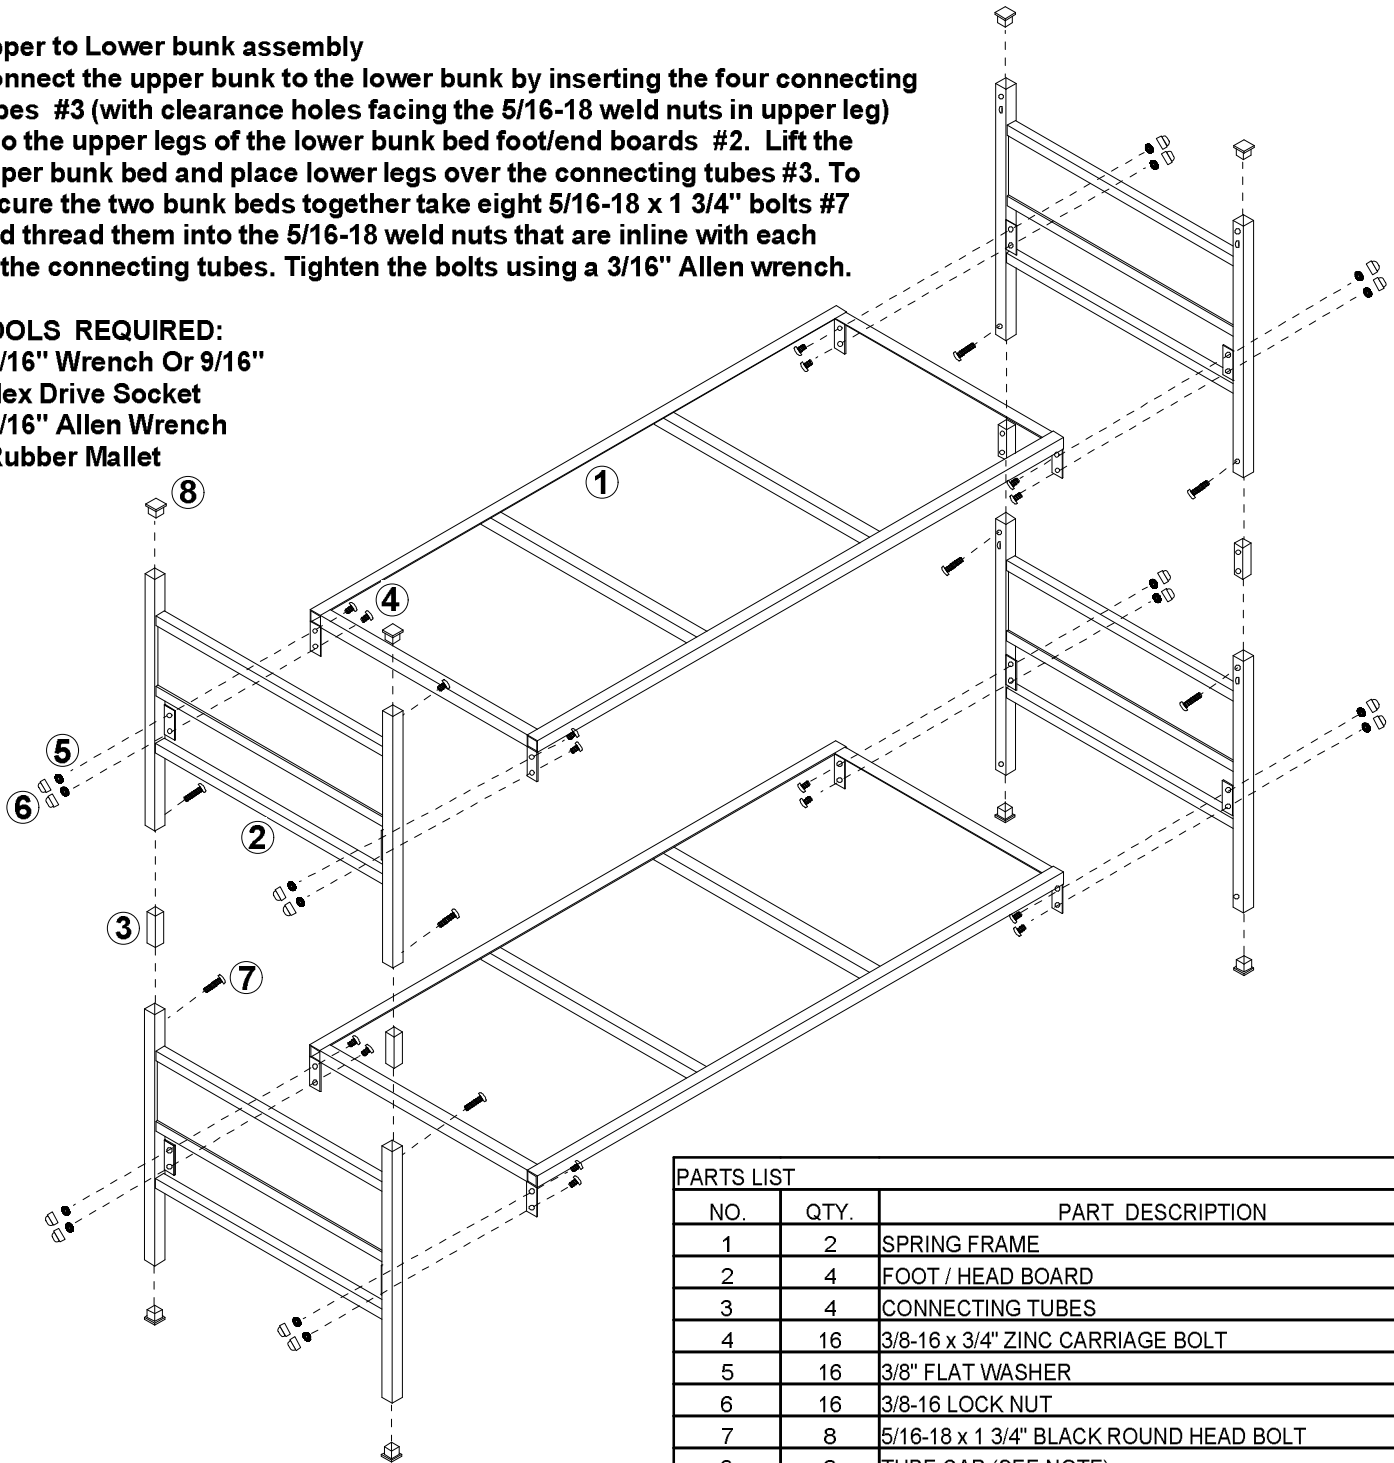

Assemble similar to lower bunk accept pound the four tube caps #8 into the upper legs of the two foot/end boards #2.

Upper to Lower bunk assembly

Connect the upper bunk to the lower bunk by inserting the four connecting tubes #3 (with clearance holes facing the 5/16-18 weld nuts in upper leg) into the upper legs of the lower bunk bed foot/end boards #2. Lift the upper bunk bed and place lower legs over the connecting tubes #3. To secure the two bunk beds together take eight 5/16-18 x 1 3/4" bolts #7 and thread them into the 5/16-18 weld nuts that are inline with each of the connecting tubes. Tighten the bolts using a 3/16" Allen wrench.

TOOLS REQUIRED:

- 9/16" Wrench Or 9/16" Hex Drive Socket
- 3/16" Allen Wrench
- Rubber Mallet

| PARTS LIST | | |
|------------|------|--|
| NO. | QTY. | PART DESCRIPTION |
| 1 | 2 | SPRING FRAME |
