

Markerboard Peg Instruction Sheet

MB200-INST
Rev. A

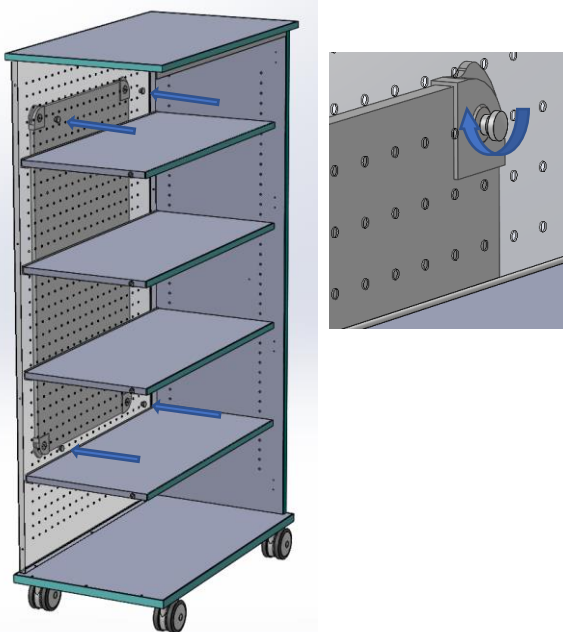

- 1.** Separate one markerboard from the 4-pack, and insert (1) #10x.5" screw and (1) mounting peg into the magnetic catch on the back of each corner (4 total.) The magnet and the peg will trap the screw and leave it protruding.

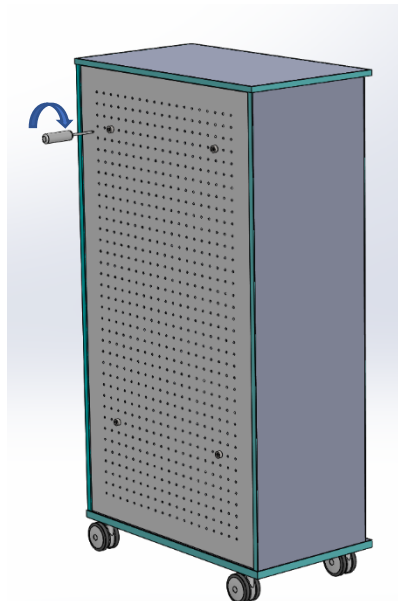

- 2.** Align the markerboard in the desired location over the perforated steel panel and insert the screws through the holes.

- 3.** Hold the markerboard in place while gently screwing the (4) knobs in place from inside the cabinet.

- 4.** Remove the markerboard from the mounting pegs by pulling gently, and hand tighten the (4) screws with a screwdriver while holding the knobs from inside the cabinet.
