# SINGLE FACE BOOKCASE ILLUSTRATION STARTER / ADDER (WITHOUT BACK) 76" H. AND TALLER

## ASSEMBLY INSTRUCTIONS

**NOTE:** For right to left installation. If installing left to right, substitute RH end for LH end and vice versa.

**Step 1:** Identify End / Intermediate Panel: End Panel (LH / RH Symmetrical) – Shelf standard or shelf clip holes on one side.  
**NOTE:** End panel must be placed in an upright position when assembling, with the L-groove towards the lower rear corner of the bookcase. (See A-A Detail on illustration)

Intermediate Panel – Shelf standards or shelf clip holes on both sides.  
**NOTE:** Intermediate panel must be placed in an upright position when assembling, with the L-groove towards the lower rear corner of the bookcase. (See A-A Detail on illustration)

**Step 2:** Connect lower frame (Edgebanded side down) to RH end panel with 5/16-18 x 1-1/2" hex head bolts and 5/16" flat washers.

**Step 3:** Connect upper frame to the top of the RH end panel with 5/16-18 x 1-1/2" hex head bolts and 5/16" flat washers.

**NOTE:** Use step #4 and #5 only when using intermediate panels.

**Step 4:** Place intermediate panel to lower frame. Take a second lower frame (Edgebanded side down) and place against the other side of the intermediate panel and bolt all three together with 5/16-18 x 3" hex head bolts, 5/16" flat washers, and 5/16-18 flange nuts.

**Step 5:** Take a second upper frame and place against the other side of the intermediate panel and bolt all three together with 5/16-18 x 3" hex head bolts, 5/16 flat washers, and 5/16-18 flange nuts. (When this step is repeated, do not tighten upper frames until tops are installed).

**NOTE:** Repeat step #4 and #5 until all adders have been set up.

**Step 6:** Place LH end panel up to lower and upper frames. Then, attach the frames to the end panel with 5/16-18 x 1-1/2" hex head bolts and 5/16 flat washers.

**Step 7:** Attach top panel(s) to upper frame(s) with #8 x 5/8" pan head screws. Tap the corners of the frame(s) / top(s) lightly up or down to align top(s).

**Step 8:** Install the bottom(s) with the four bumpers down and groove down and out.

**Step 9:** Insert shelf clips into ends / intermediate panels evenly spaced. Install shelves into bookcase.  
**NOTE:** Install wood shelves with groove down and out. (See illustration)

**NOTE:** Use step #10 for units 60" high and taller.

**Step 10:** Connect center most shelf to ends and partitions using the following methods:  
**Wood shelf** – Using angle brackets and #8 x 5/8" pan head screws mark and pre-drill in the following areas: Place (2) angle brackets under each shelf end; (1) just behind front shelf clip and (1) just in front of rear shelf clip. (See Detail B)  
**Metal shelf** – Mark and pre-drill for #8 x 5/8" pan head screws in the following areas: Under each shelf end: Place (1) screw in the punched hole just in front of the front shelf clip and (1) screw in the punched hole just in front of rear shelf clip. (See Detail C)

**NOTE:** All single faced bookcases must be anchored to the wall.
